

Product family ZM18

**Max.
output power
200 mW**

IP 67

Diode laser

**Focusable or
fixed focus**

**Easy
installation**

**Operating
voltage
5-30 VDC**

The perfect allrounder

The ZM18 family is a long-proven product line that is useful as a positioning aid and in image processing applications. With a \varnothing 20mm laser head and an M18 thread, they are easy to attach and can be used in a variety of ways.

The ZM18 lasers are available in blue, green, red, or infrared wavelength and offer various electronic features depending on the requirements. The modular product selector allows the assembly of product features either for a standard positioning task as well as for a high-end machine vision application with demands towards the communication and modulation of the laser. A simple focusing mechanics, optical output power up to 200mW, and the IP67 water and dust protection are additional features of this product family.

HIGHLIGHTS

- Industrial standard
- IP67
- Optical output power up to 200 mW
- Wavelengths from 405 - 830 nm
- Manual or fixed focus
- TTL modulation up to 500 kHz
- Analog intensity control

APPLICATIONS

- Machine vision
- Triangulation sensors
- 3D-Measurement
- High-precision positioning tasks

SYSTEM SPECIFICATIONS

Wavelength	nm
Wavelength tolerance	nm (typical)
Wavelength drift	nm / K (typical)
Output power	mW
Electronic versions	
Pointing Stability	μrad / °C
Long-term power stability	(24h)
Start-up time	sec.
Laser operation mode	

405-450	520	532	635-685	785-830
±10	-5 +10	± 1	±10	±4
0,06	0,06	0,06	0,25	0,25
≤160	≤40	≤40	≤120	≤200
H3	B3, H3	B	B, S3	B, S3
<15				
±3 % over operating temperature range				
<2				
APC				

ELECTRICAL SPECIFICATIONS⁽³⁾

Operating voltage	
Operating current	(max. at 25°C)
Protection
