## **TECHSPEC® UAV Series Fixed Focal Length Lenses**

- Compact, Infinite Conjugate Lens Ideal for Photogrammetry
- 8mm, 12mm, 16mm, 25mm, and 35mm Focal Lengths
- 1.2", C-Mount Lens
- Up to 24.4 MegaPixels, 2.7 $\mu$ m Pixel Size Sensors

# Common Specifications

|                    |                    |
|--------------------|--------------------|
| General            |                    |
| Imaging Lens Type: | Infinite Conjugate |

|                                  |          |
|----------------------------------|----------|
| Physical & Mechanical Properties |          |
| Iris Option:                     | Variable |

|                            |                |                        |                |
|----------------------------|----------------|------------------------|----------------|
| Optical Properties         |                |                        |                |
| Maximum Image Circle (mm): | 19.30          | Wavelength Range (nm): | 425 - 675      |
| Working Distance (mm):     | 500 - ∞        | Coating:               | 425 - 675 BBAR |
| Coating Specification:     | 425 - 675 BBAR |                        |                |

|                        |      |
|------------------------|------|
| Sensor                 |      |
| Maximum Sensor Format: | 1.2" |

|                      |         |
|----------------------|---------|
| Threading & Mounting |         |
| Mount:               | C-Mount |

|                                    |  |
|------------------------------------|--|
| Environmental & Durability Factors |  |
| Storage Temperature (°C):          | -20 to +60 For questions regarding operating temperature please contact our support team |
