## Product Details

- English and Metric Units
- Stainless Steel Construction
- High Measurement Resolution

Mitutoyo Pocket Rulers and Protractors are ideal tools for quick and accurate manual measurements in optical settings to maintain system performance. These Pocket Rulers feature a sliding stop for accurate measurements, are non-magnetic to prevent interference with sensitive applications, and feature a conversion chart on the back between inch divisions and millimeters. Protractors are available in four form factors to best match the application including digital, universal bevel, semi-circular base, and rectangular base. Mitutoyo Pocket Rulers and Protractors are made from stainless steel making them stronger than aluminum to maintain straightness and prevent distortion.
