Product Details

- 4-Watt and 6-Watt Models Centered at 365nm
- Stands are Available for Hands Free Curing
- Portable, High Intensity Design

Handheld UV Curing Lamps are portable benchtop lamps designed for a variety of applications including the fluorescence of stained gels, sterilization, or UV curing. These lamps feature ergonomically designed handles with conveniently placed on/off switches. These lamps are portable, with a high-intensity design. Handheld UV Curing Lamps are ideal for quickly curing Edmund Optics' full line of [Norland Optical Adhesives](#). These lamps are available in 4-watt and 6-watt models centered at 365nm.

Note: Stands are not included, but are recommended for hands free curing or analysis.
