Product Details

- IP69K Certified for Extreme Washdown Environments
- Ideal for Hygienic and Aseptic Manufacturing Applications
- Intensity of Over 60,000 Lux at 300mm Working Distance

Advanced Illumination High Intensity UltraSeal Washdown Spot Lights are ideal for extreme environments including high pressure steam cleaning and prolonged liquid immersion. Available in five colors, these spot lights feature high intensity output and consistent uniformity. These spot lights are IP69K certified and their proprietary nickel finish ensures better thermal conductivity than stainless steel while the sealed design reduces the potential for material buildup and improves cleanability. Advanced Illumination High Intensity UltraSeal Washdown Spot Lights can be used in hygienic inspection environments, aseptic manufacturing, and food and beverage applications.
