## Product Details

- 1/4"-20 Camera Mounts with 90° or 180° Tilt Available
- 360° Rotation with 10° Index Marks
- Compatible with Popular [Cameras](#)

Rotation Mounts for Machine Vision Cameras feature 360° of rotation and are available with either 90° or 180° of tilt. These mounts feature a lightweight low-profile design, clear index marks for quick repeatability. 1/4" – 20 mounting holes allow for compatibility with [Allied Vision](#), [Lucid Vision Labs™](#), [Basler](#), [FLIR](#), [IDS](#), and other popular [machine vision cameras](#). The 90° rotation mount features a strong collet-style tilt lock whereas the 180° rotation mount features a taper-style tilt lock. Rotation Mounts for Machine Vision Cameras are ideal for integrating stability and flexibility into imaging systems.
