Allied Vision Manta PoE Cameras are high performance GigE cameras that offer the flexibility of Power over Ethernet (PoE) for easy system integration. These cameras are available in monochrome or color models, with sensors ranging from 1/2.9” to 1.2” and resolutions from 0.4 to 24.55 MegaPixels. M3 threads on both the top and bottom of the camera housing allow for easy camera mounting, and an optional ¼-20 Tripod Adapter (**#89-996**) is also available. Allied Vision Manta PoE Cameras feature C-Mount threading and are compatible with C-Mount accessories including imaging lenses and machine vision filters. The robust metal housing makes these PoE cameras ideal for industrial environments and machine vision applications such as quality control or industrial inspection.

Note: GigE cable (**#63-431**) sold separately and required for operation. **Allied Vision Manta GigE cameras** without Power over Ethernet are also available.
