Product Details

- Simplify Component Selection for [SZ61](#) and [SZX7](#) Microscopes
- Systems Ready to use with Camera of your Choice
- Boom Stand Systems Include Ball Bearing Boom Stand

Preconfigured Olympus Stereo Microscope Systems include an Olympus SZ61 or SZX7 microscope and some of the most common components used to complete a microscope system. The [Olympus SZ61 Microscope](#) utilizes a Greenough optical system for improved image quality and superior field flatness. The [Olympus SZX7 Microscope](#) features video compatibility and a Galilean optical system for high resolution imaging. Boom stand systems include a high stability Ball Bearing Boom Stand ([#54-121](#)). Microscope System includes a basic reflected light stand and is ready to be used with a [camera](#) of your choice. Add a camera (such as [Microscopy Camera](#)) to complete the video microscope system*. See the Technical Information tab for parts that are included in each configuration.

***Note:** Additional connection cables and/or external power supply may be required.
