## Product Details

- Slot Adjustment Range of 1.00"

This universal component is the mounting accessory needed to position base plates and base mounted components virtually anywhere on any English optical breadboard, plate or table. A 1/4-20 socket head positioning screw adjusts in the slot for the correct height and attachment to the breadboard. Nylon clamping screw on opposite end tightens against a component base up to 0.6" (15mm) thick. Anodized aluminum.
