Product Details

- Slot Adjustment Range of 1.00"
- This universal component is the mounting accessory needed to position base plates and base mounted components virtually anywhere on any English optical breadboard, plate or table. A 1/4-20 socket head positioning screw adjusts in the slot for the correct height and attachment to the breadboard. Nylon clamping screw on opposite end tightens against a component base up to 0.6" (15mm) thick. Anodized aluminum.
